

IMPACTSM

Inventory Management Solutions

Introducing the IMPACTSM Scanner

Professional Veterinary Products makes ordering supplies faster and easier than ever. Our inventory scanner with built-in software eliminates the hassles of keeping a list of needed products and then calling or faxing your orders to your supplier.

With PVP, you can create and place orders in a fraction of the time, gain greater control over your purchasing processes, and reduce your ordering errors.

We call it Scan, Sync and SendTM technology; *you'll call it easy.*

- **Create and place orders in minutes**
- **Gain greater control over your purchasing processes**
- **Reduce errors**
- **Reduce shrink**
- **Save staff time**
- **Lower your costs**

Get Ready

- Download the program at www.pvpl.com
- Access and print product bar codes from your "order history" template

Get Set

- Attach the labels to your product shelf or simply keep the label sheets in a notebook for easy access

Order

- Scan the printed bar code label
- Plug the scanner into your computer; the automated synchronization will open and place the scanned items in your PVP shopping cart
- Edit quantities, see promotions and add additional items to your cart
- Click to submit your order
